Nuevos retos en materia de derechos digitales en un contexto de pandemia: perspectiva multidisciplinar Juan Francisco Rodríguez Ayuso, 2022-07-14 El presente estudio pretende analizar pormenorizadamente la novedosa regulación que de los derechos digitales proporciona la Ley Orgánica 3/2018, de 5 de diciembre, de Protección de Datos Personales y garantía de los derechos digitales. A tal efecto, y desde una perspectiva multidisciplinar, se acomete una profunda investigación sobre aspectos novedosos de gran interés en la actualidad, como los derechos a la neutralidad de Internet; al acceso universal a la Red; a la seguridad digital; a la educación digital; a la protección de los menores en Internet; a la rectificación en Internet; a la actualización de informaciones en medios de comunicación digitales; a la intimidad en Internet y uso de dispositivos digitales en el ámbito laboral; a la desconexión digital en el ámbito laboral; al uso de dispositivos de videovigilancia y de grabación de sonidos en el lugar de trabajo; a la intimidad ante la utilización de sistemas de geolocalización en el ámbito laboral, o al olvido en servicios de redes sociales y servicios equivalentes.

La privacidad en el entorno del cloud computing Jorge Villarino Marzo, 2018-06-06 La evolución tecnológica ha tenido un enorme impacto en los derechos fundamentales, dando lugar al nacimiento de la cuarta generación de derechos. Uno de estos derechos ha sido, sin duda, el derecho a la protección de datos. La privacidad constituye una de las grandes preocupaciones de la sociedad. Por esta razón, cualquier desarrollo tecnológico plantea nuevos retos a la regulación de la protección de datos. La computación en nube es una realidad tecnológica caracterizada por la ubicuidad, la elasticidad, el dinamismo, la virtualización, la escalabilidad y el pago bajo demanda. Hoy día la expansión y progresiva generalización de la nube, así como sus capacidades de almacenamiento y procesamiento la convierten en uno de los pilares esenciales sobre los que se asientan las más recientes evoluciones tecnológicas. En este trabajo se analiza si la regulación actual del derecho fundamental a la protección de datos es válida para hacer frente a los retos que plantea la computación en nube o si es necesario un nuevo régimen jurídico.

Nineteen Eighty-Four George Orwell, 2021-01-09 Nineteen Eighty-Four: A Novel, often published as 1984, is a

dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, *Nineteen Eighty-Four* centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

¡Cantemos! Keith Getty, Kristyn Getty, 2018-06-01 ¡Cantemos! Ha sido creado por la pasión del canto congregacional de Keith y Kristyn Getty y ha sido formado a través de viajes y presentaciones al escuchar, discutir, aprender y enseñar a través de todo el mundo. Con la creación de este material ellos tienen cinco objetivos clave: Descubrir por qué cantamos y la abrumadora dicha y el santo privilegio que proviene de cantar. Considerar que cantar impacta nuestras vidas, corazones y mentes. Cultivar una cultura de familia que canta, en nuestra vida familiar diaria. Equipar a nuestras iglesias para cantar con sinceridad al Señor y a los demás en una expresión de unidad. Inspirarnos para ver el canto congregacional como un testigo radical para el mundo. También se han incluido «pistas adicionales» al final, con sugerencias prácticas para usarlas con grupos que están más profundamente relacionados con el canto en la iglesia. El propósito de Dios a través de esta irresistible visión de ver a Su pueblo cantando (personas que alegremente se unen a cantar, hermanos y hermanas alrededor del mundo y alrededor de Su trono) es incluirte. Él quiere que todos nosotros cantemos. Sing! has grown from Keith and Kristyn Getty's passion for congregational singing; it's been formed by their traveling and playing and listening and discussing and learning and teaching all over the world. And in writing it, they have five key aims: • to discover why we sing and the overwhelming joy and holy privilege that comes with singing • to consider how singing impacts our hearts and minds and all of our lives • to cultivate a culture of family singing in our daily home life • to equip our churches for wholeheartedly singing to the Lord and one another as an expression of unity • to inspire us to see congregational singing as a radical witness to the world They have also added a few "bonus tracks" at the end with some more practical suggestions for different groups who are more deeply involved with church singing. God intends for this compelling vision of His people singing—a people joyfully joining together in song with brothers and sisters around the world and around His heavenly throne—to include you. He wants you,

He wants us, to sing.

Laudato Si Pope Francis, 2015-07-18 “In the heart of this world, the Lord of life, who loves us so much, is always present. He does not abandon us, he does not leave us alone, for he has united himself definitively to our earth, and his love constantly impels us to find new ways forward. Praise be to him!” – Pope Francis, Laudato Si’ In his second encyclical, Laudato Si’: On the Care of Our Common Home, Pope Francis draws all Christians into a dialogue with every person on the planet about our common home. We as human beings are united by the concern for our planet, and every living thing that dwells on it, especially the poorest and most vulnerable. Pope Francis’ letter joins the body of the Church’s social and moral teaching, draws on the best scientific research, providing the foundation for “the ethical and spiritual itinerary that follows.” Laudato Si’ outlines: The current state of our “common home” The Gospel message as seen through creation The human causes of the ecological crisis Ecology and the common good Pope Francis’ call to action for each of us Our Sunday Visitor has included discussion questions, making it perfect for individual or group study, leading all Catholics and Christians into a deeper understanding of the importance of this teaching.

La Inteligencia Artificial en el periodismo Santiago Tejedor Calvo, 2023-06-06 Este libro reflexiona sobre el impacto, las posibilidades y los desafíos que la inteligencia artificial (IA) introduce en el ámbito periodístico. A partir de una selección de listas, tablas, gráficos, informes, experiencias y noticias, el trabajo invita a cultivar una mirada siempre crítica hacia el rol de la tecnología en el periodismo y la comunicación. Además, se ha elaborado una cartografía mundial -hasta el momento inexistente- de experiencias periodísticas que trabajan con esta tecnología. La obra presenta directorios de conceptos clave, enumera potencialidades, advierte de riesgos y amenazas, esboza perfiles y procesos, y sintetiza directorios de recursos y materiales de ayuda. Todo ello prologado por un texto del investigador y docente Ramón Salaverría. El objetivo no es más que explicar, contextualizar y divulgar qué es (y qué no es) la IA y cómo puede sumar en el quehacer periodístico. Un periodismo que cree, necesita y se edifica en torno a las historias contextualizadas y elocuentes. Algo que solo saben hacer los humanos (por ahora).

Recursos naturales, medio ambiente y sostenibilidad United Nations, 2019-10-14 La producción intelectual de la CEPAL en sus 70 años de existencia ha sido vasta en distintos ámbitos del desarrollo. En este libro se analizan y contextualizan los principales hitos e ideas del pensamiento económico de la CEPAL sobre recursos naturales, medio ambiente y sostenibilidad, organizados en las dos grandes etapas que han caracterizado la vida institucional: la estructuralista (1948-1990) y la

neoestructuralista (de 1990 en adelante). A partir de una revisión sistemática de la literatura, se destacan ideas como el vínculo entre la especialización productiva en recursos naturales y los términos de intercambio desfavorables, formulada en los años cincuenta; la soberanía sobre los recursos naturales, en los sesenta; la enunciación temprana del principio de responsabilidades comunes pero diferenciadas, en los setenta; los estilos de desarrollo y medio ambiente, en los ochenta; la competitividad espuria, en los noventa, y la gobernanza de los recursos naturales, el estilo de desarrollo sostenible con igualdad y el gran impulso ambiental, en las dos primeras décadas del siglo XXI. El pensamiento neoestructuralista de la CEPAL es dinámico, abierto y se renueva permanentemente sin perder su tradición estructuralista. El libro aporta también elementos conceptuales para formular un neoestructuralismo ecológico.

A Course in Miracles Made Easy Alan Cohen, 2015-10-27 A Course in Miracles (ACIM)—the self-study spiritual-thought system that teaches the way to love and forgiveness—has captured the minds and hearts of millions of people, and delivered inner peace where fear and pain once prevailed. Its universal message is unsurpassed in its power to heal. Yet many students report that they have difficulty grasping the principles, or encounter resistance to the lessons. So, even while they yearn for the spiritual freedom the Course offers, they put the book aside, hoping one day to get to it. Alan Cohen, ACIM student and teacher for over 30 years, takes the Big Picture ideas of the Course and brings them down to earth in practical, easy-to-understand lessons with plenty of real-life examples and applications. A Course in Miracles Made Easy is the Rosetta stone that will render the Course understandable and relatable; and, most importantly, generate practical, healing results in the lives of students. This unique reader-friendly guide will serve longtime students of the Course, as well as those seeking to acquaint themselves with the program.

La Internet y la calle Fabio Malini, Henrique Antoun, 2017-10-10 A partir de 1984, la Internet irrumpió en nuestras vidas y poco a poco el ciberespacio se ha convertido en una esfera pública donde convivimos, aprendemos, negociamos y colaboramos. Hoy, también es el campo de batalla entre quienes buscan controlar e imponer dictaduras políticas, económicas y sociales, y los que se les resisten, valiéndose de la web para movilizarse y combatirlos. En esta obra, los autores clarifican cómo surge y qué es lo que sucede en esta “bios”, conformada por redes, dispositivos, datos, procesos de interacción humana / no humana, así como la manera en que se conecta y hace cortocircuito con el mundo real o analógico, el de las multitudes que se mueven en las urbes.

Dimensions of Learning Teacher's Manual, 2nd ed. Robert J. Marzano, Debra J. Pickering, 2011-05-01 The premise of Dimensions of Learning an instructional framework founded on the best of what researchers and theorists know about learning is that five types, or dimensions, of thinking are essential to successful learning. These are (1) positive attitudes and perceptions about learning, (2) thinking involved in acquiring and integrating knowledge, (3) thinking involved in extending and refining knowledge, (4) thinking involved in using knowledge meaningfully, and (5) productive habits of mind. Dimensions of Learning is a valuable tool for reorganizing curriculum, instruction, and assessment. The authors discuss each of the five dimensions in detail and describe hundreds of teaching strategies that support them for example, how to help students construct meaning for declarative knowledge, internalize procedural knowledge, and see the relevance of what they are expected to learn. The authors provide many examples at the elementary and secondary classroom levels. Teachers of grades K-12 can use this information to improve teaching and learning in any content area. The Powers of Literacy (RLE Edu I) Bill Cope, Mary Kalantzis, 2014-06-17 Literacy remains a contentious and polarized educational, media and political issue. What has emerged from the continuing debate is a recognition that literacy in education is allied closely with matters of language and culture, ideology and discourse, knowledge and power. Drawing perspectives variously from critical social theory and cultural studies, poststructuralism and feminisms, sociolinguistics and the ethnography of communication, social history and comparative education, the contributors begin a critical interrogation of taken-for-granted assumptions which have guided educational policy, research and practice.
